

CHAPTER V

CONCLUSION

5.1. Conclusion

Following the completion of the research and analysis of the results, the researcher comes to the following conclusion:

The researcher could find the answer by analyzing the interview with the student. Student more interesting and enjoying learning english by using a new strategy, moreover, by using instagram as a learning media help them understand part of generic structures of descriptive text and they can express their idea. Meanwhile the students who were not taught by using instagram was still got difficulties to understand part of generic structures and they felt bored in teaching and learning process. Beside that, the students' score after implemementing instagram was good. The higher score was 95 the mean of all students was 82,28. It was different with students who were not taught by using instagram. The higher score was go but the mean was 72,28. The result showed that after giving treatment in experimental class, the score higher that before giving treatment. It was proven that the mean score before giving treatment was 70 and after giving treatment was 82,28. Beside that, in independent sample test. The result show that sig (p value)= 3,081 > $\alpha = 0,05$. It can be inferred that H_a was accepted and H_0 was rejected.

Therefore, it can be concluded that the use of instagram was effective and could improve on students writing skill in descriptive text at the tenth grade of SMK N 1 Bangsri in the academic year of 2020/2021.

5.2. Suggestion

Based on the result of the research and the advantages of social media through instagram in teaching writing skill in descriptive text to the tenth grade of SMK N 1 Bangsri, the researcher would like to give some suggestion. The first suggestion is to English teachers of SMK N 1 Bangsri. After conducting the research and getting the result, the researcher would like to suggest the teacher in teaching writing by using social media through instagram because this research proves that the method can improve students' writing skill in descriptive text. The second suggestion is to the all students in SMK N 1 Bangsri. After conducting the research and getting the result, the researcher would like to suggest the students especially in learning English to practice writing English at home with a correct writing because writing English is important for achieving the objective of English lesson.
