

CHAPTER V

CONCLUSION AND SUGGESTION

The conclusion and suggestion for this research were presented in this chapter. The conclusion in this research is to give the concluding about using collaborative learning technique to improve the students' reading skill at eleventh grade of SMK N 1 Batealit. The suggestions in this research related about the topic were presented on the chapter IV.

5.1 Conclusion

Base on the research conducted at SMKN 1 Batealit in the academic year of 2019/2020, the researcher concludes that using collaborative learning technique has any significant effect to improve students' reading skill. The students who were taught by using collaborative learning technique had higher score than students who were taught by using other technique. Based on the statistical calculation at the previous chapter, there is significant difference teaching reading skill between experimental and control class that were taught by using collaborative learning technique and without collaborative learning technique. The result shows that the value of t-test (2,106) is higher than t-table (2,018) at the significance level 5% it means that the Null Hypothesis (Ho) is rejected and the Alternative Hypothesis (Ha) is accepted. It can be concluded that collaborative learning technique has effect to improve students' reading skill at the eleventh grade of SMK N 1 Batealit. Besides that, collaborative learning technique is one of technique in teaching reading skill was very useful and can be applied in teaching reading.

5.2 Suggestions

After concluding the research above, the researcher defined some suggestion based on the research. The suggestion:

- a. For English Teachers at SMK N 1 Batealit, the researcher recommends to use the collaborative learning technique in teaching reading skill. It is because students can understand and easy to catch the information from the text. In teaching reading, the teacher must pay attention the condition of students, so the teacher is able to provide an approach facilitated to teaching and learning process in the class.
- b. For the students, they should study hard and make English language as their need because reading can improve their knowledge and they can explore much information from reading. Especially for students of SMK N 1 Batealit, they need English language to master their major.
