

CHAPTER V

CONCLUSION AND SUGGESTION

The conclusion and the suggestion for the future researcher were presented in this chapter.

5.1 Conclusion

Based on research conducted at SMA ISLAM Jepara in the academic year 2018/2019, the writer concluded that using Two Stay Two Stray model is effective in improving students speaking ability. In Two Stay Two Stray model the students had positive effect in improving their English speaking. The students who were taught using Two Stay Two Stray model got higher score than students who were not using Two Stay Two Stray model.

This research was conducted by using quasi-experimental design which is aimed to find out whether Two Stay Two Stray model is effective to improve students' speaking ability. The research finding which were at the tenth grade of senior high school students in SMA Islam Jepara and gave treatment to the experimental group. Between pre-test (59,4) and post-test (71,3) which were significantly improving.

Two Stay Two Stray model can improve students speaking ability because in Two Stay Two Stray model every students should speak especially in English speaking to share their information by turn to other students. In Two Stay Two Stray model students had opportunity to speak up their idea to others. For the other students should listened and gave comments or questions. The students should solved the problem that given by teacher and then explains the information to other students.

5.2 Suggestion

The English teachers in teaching speaking should deliver material by using variative strategy that can make student more interesting when learning English especially English speaking. The teachers should using appropriate strategy in teaching English. If the teachers only using monotony strategy like

only giving the students reading text and then asked them to answer students will bored in learning English. The students need more variative teaching learning in the class, so the class more active. Teachers can use some media like video or picture that can make the lesson more interesting. By using strategy and media the students will easy to catch the material.

The researcher will give some suggestion for English teachers, the students, and the future researchers as follow:

a. For English Teachers

The teachers should follow the trend in the teenager trends. It can make students more interesting in learning process. Using various strategy in teaching English especially in teaching English speaking. By using some strategy in teaching English the students will easy to catch the material. Through this study, the teachers can consider to using Two Stay Two Stray model in teaching English speaking. The teachers also can using media like picture, audio, and video. The teachers should selective when choosing strategy, the strategy should appropriate with the skill. The teachers can loking for any strategy references. Various strategies can motivated and encourage students to participate actively in teaching and process.

b. For Students

In learning English students should practice to using English as their daily communication inside class or outside class. In learning English students should be more confidence and enrich the vocabularies. They can learn by using English movie or listen to the English song and then try to practice it.

c. For The Future Researchers

I suggest to the future researcher to more creative in teaching learning English. Try to create a interesting media. Hopefully this research can be advantaced by the further researcher.

d. For The School

SMA Islam Jepara is expected to provide insfrastructure and equipment especially visual media learning, such as music videa.
