

CHAPTER V

CONCLUSSION AND SUGGESTION

From the overall of the research, the data has been obtained from the research that has been conducted from the researcher. The data has been obtained from the observation, interview and documentation. So, the researcher would be discussed about the conclusion and the suggestion from the previous chapter.

5.1 Conclusion

From the result of the previous chapter, the researcher concluded that :

1. The implementation of Communicative Language Teaching (CLT) Method in Teaching Speaking Skill were applied in the classroom. The data got from classroom observation. The result was the implementation of communicative language teaching (CLT) method in teaching speaking skill was made a good improvement of the students. Beside that, the students' participation and the students' enthusiasm were also increased. It because of the method and media that used by the teacher which made the students to be active. Especially when the teacher had good idea to support the material by using media that was used LCD Projector, short video and Power Point Presentation about the expression of asking and giving opinion, Laptop, Speaker Active, Origami Paper and etc.
2. The teachers' difficulties in implemented CLT method in teaching speaking skill was because of the weakness of the student in their vocabulary, that was made the student did not confidence to practice to speak up in from of class. It was the reason of the teacher got difficulties to implemented CLT. The last instrument is documentation. It was conducted in every instrument to gave the real data related to the phenomena. The documentation that used is pictured and video.

5.2 Suggestion

Based on the conclusion above, the researcher has some suggestion for the teacher and the readers.

- a. Communicative Language Teaching Method could be implemented in teaching and learning process, especially in teaching speaking and writing for student. The students' motivation and students' participation would be increased when teacher explained the material by using media to support the method.
- b. The teacher also had a good technique in teaching in the classroom in order to make the students to be active. The used of technique to make the students had a good response, so that the class did not so silent.
- c. The teacher should took the form of pair and group work requiring negotiation and cooperation between learners, fluency-based activities to encourage learners to develop their confidence, role-plays in which students practice and develop language functions.
