

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

#### **5.1 Conclusions**

In this part, the researcher presents the conclusion of the research to the reader. Based on the research finding in the previous chapter, the participant of the research was the tenth grade students of SMK Negeri 3 Jepara. There were 36 students was been taught speaking skill by using picture series. The students were interested by implemented picture series in teaching speaking skill.

In the speaking classroom, the teacher motivated the students to speak up confidently. In the beginning of the learning process, the teacher brainstorm the students' memorize by asking some questions. Then, the teacher explained the material that was going to learn. After that, the teacher shew and explained picture series. Before the students practice their speaking skill at the front of class, the teacher asked to students to discuss with their partner. In addition, the teacher gave some comments and suggestions about the students' performances.

In this research, the researcher found out the factors that influence the implementation of picture series media in teaching speaking skill through interviewing the teacher. The factors that influenced the implementation of picture series media in teaching speaking skill was to make the students active in speaking classroom. The impact of the implementation picture series in teaching speaking skill was the students could give some ideas or information of collecting data from the picture.

#### **5.2 Suggestion**

Consider to the process and the result of this research and based on the conclusion above, the writer suggest that:

- 1) The English teacher can use picture series as their media in teaching speaking skill. Through the picture, the students know the description of the

real object. So, the students can get some information. Then, the students can share their ideas to other.

- 2) The students can use picture series to improve their speaking skill because the picture can stimulate the students' thinking.
- 3) For the further researcher, a similar research can also be conducted to improve the other skill.
