

CHAPTER V

CONCLUSION AND SUGGESTIONS

5.1. Conclusions

In this chapter, the researcher presents the conclusion of the research to the reader. Based on the research finding in the previous chapter, the participant of the research was the fifth grade students of MI Tamrinussibyan II. There were 25 students taught using kids songs as media in teaching speaking. The students made significant progress in their speaking ability.

In teaching learning process, the teacher prepares the material before teaching activity began. Then, the teacher asked the students to hear the song and gave the lyric song that played by the teacher. After that the teacher explained the material which related with the songs. After the teacher gave explanation about the material, the teacher checked the students' understanding by giving a test that related the material.

In this research the researcher found out the factors that influence the implementation of the use of kids song in teaching speaking through interviewing the teacher. The factor of the teacher that influenced the implementation of using kids song in teaching speaking was to motivate the students to learn English especially in speaking skill. The impact of the teacher in using the media is that felt the students enthusiastic in learn English.

5.2. Suggestion

Considering to the process and the result of this research and based on the conclusion above, the writer would suggest that:

- 1) The English teacher can use kids songs as media in the teaching and learning English especially speaking skill to improve their students' ability. Kids songs help the teacher gently push the students to be an active speaker, increase the students' interest and enthusiasm in learning and practicing English speaking skill.
- 2) Using kids song in teaching speaking is recommended for English teachers, especially for the elementary school teacher to attract the students' interest and motivation in learning English.
- 3) The students can use kids songs to practice their speaking ability skill because it can help them to learn more, have more fun, and also develop listening skill. The use kids song in learning activity also can help the

students to practice speaking skill become more fluent, and make the students more confident to speak English.

- 4) To get a wider generalization of the result of this study, such activity should be conducted in other classes of other school, and the writer hopes that there will be many researchers explore the used kids song as media in teaching and learning process.
- 5) For the further researcher, a similar research can also be conducted to improve the other skill
