

## CHAPTER V

### CONCLUSION AND SUGGESTION

This chapter explained about conclusion from finding and discussion in chapter IV and suggestion.

#### 5.1 Conclusion

Based on the result of finding and discussion in chapter IV, it could be concluded that the tenth grade students of Tata Busana in SMK Sadamiyyah Guyangan Jepara had problems. Those were low motivation and lack of vocabulary so the students could not comprehend text well. The researcher found that the students got difficulties in memorizing word with many meanings.

In order to solve the problems, the researcher tried to implement word walls media combined with group investigation method. After the teacher taught appropriate material, the researcher asked the students to make a group, there were four groups and each group consisted of seven students. Then the researcher applied word walls media as a game. Then the teacher gave a text to each group and asked the students to study about the text. After that, the teacher started to investigate the students. Then, the students asked to make a short story from the text and each group came forward to present about their story.

After analyzing the implementation of word walls media combined with group investigation method from the cycle one and cycle two showed that the result was successful. The average score from 71.57 improved to

81.57. The implementation of word walls media combined with group investigation method also made the students were more active, interest in learning process, and they did not feel bored.

The result from the questionnaire in the end of the research showed that the students had positive response toward the implementation of word walls combined with group investigation method. It had positive effect in improving the students' reading comprehension. From the data in chapter IV, the researcher concluded that the use of word walls media combined with group investigation method could improve the students' reading comprehension of tenth grade students of tata busana in SMK Sadamiyyah Guyangan Jepara.

## **5.2 Suggestion**

Based on the result of this research, the researcher would like to give some suggestions, as follow:

### **1. For other researcher**

The other researcher could use this thesis as a reference or if it is possible, when meet a same problem try to use this media or method in other way. So there will be various way in implementing word walls media and group investigation.

### **2. For the students**

Students should hard work, pay attention, be active in learning process in every subject in the school, especially in English. Students

also can make word walls by their self in their room to remember some vocabularies.

3. For the teacher

When the teachers find same problems, they may try to implement word walls media or group investigation method to solve the problems. Because word walls media combined with group investigation method applied by the researcher quite successful.
